

THE STRUCTURE OF MATHEMATICAL REALITY

Phase I — Chapter 3

The Map of Mathematical Fields

Assignment

Self-Study Curriculum

Revise the diagram you drew in Chapter 1. Now you have more structure to work with. Add:

- The bridges between fields
- The hierarchy of structure preservation (which field is a “coarsening” of which other field)
- At least two concepts from your own work, placed at the intersection of the fields they belong to

Write a half-page reflection: what changed between your first diagram and this one? What did you know implicitly that you can now name?
